

Homework5 screenshots

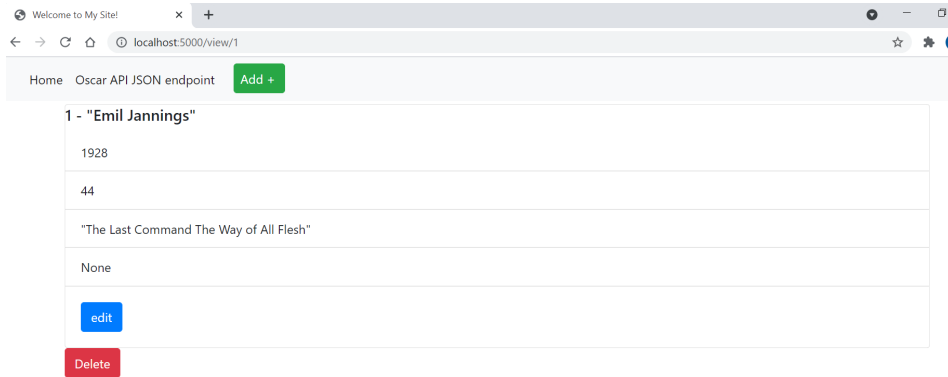

- a. The project showing that you can view YOUR data tables in Pycharm

- b. YOUR project running correctly in the browser displaying your homepage with your data

- c. YOUR project running correctly in the browser displaying your data record as a view of one record

- d. YOUR project running correctly in the browser displaying a new record added to your home page

Before add new record

The screenshot shows the 'Oscar Project's Homepage' with a navigation bar containing 'Home', 'Oscar API JSON endpoint', and a green 'Add +' button. Below the navigation bar is a table with the following data:

Index	Year	Age	Name	Movie	Note
1	1928	44	"Emil Jannings"	"The Last Command The Way of All Flesh"	None
2	1929	41	"Warner Baxter"	"In Old Arizona"	None
3	1930	62	"George Arliss"	"Disraeli"	None
4	1931	53	"Lionel Barrymore"	"A Free Soul"	None

After added new record with index 0

The screenshot shows the 'Oscar Project's Homepage' with a navigation bar containing 'Home', 'Oscar API JSON endpoint', and a green 'Add +' button. Below the navigation bar is a table with the following data:

78	2005	37	"Jamie Foxx"	"Ray"	None
79	2006	38	"Philip Seymour Hoffman"	"Capote"	None
80	2007	45	"Forest Whitaker"	"The Last King of Scotland"	None
81	2008	50	"Daniel Day-Lewis"	"There Will Be Blood"	None
82	2009	48	"Sean Penn"	"Milk"	None
83	2010	60	"Jeff Bridges"	"Crazy Heart"	None
84	2011	50	"Colin Firth"	"The King's Speech"	None
85	2012	39	"Jean Dujardin"	"The Artist"	None
86	2013	55	"Daniel Day-Lewis"	"Lincoln"	None
87	2014	44	"Matthew McConaughey"	"Dallas Buyers Club"	None
88	2015	33	"Eddie Redmayne"	"The Theory of Everything"	None
0	1999	22	"Dejing"	"Sun and Moon"	

- e. YOUR project running correctly in the browser displaying an updated record added to your home page

Before change
